Certificate of Analysis

Product Name: Iodophore

Color : Dark brown

PRODUCT SPECIFICATIONS	
Appearance	Dark brown liquid
Composition	Iodophor Sanitizer Alkyl Phenoxy Polyoxy ethylene iodine complex providing 0.26% available tamed iodine (minimum).
Solubility	Water, miscible in all dilutions, must remain stable overnight with no sediment or separation at 25 degree centigrade, fading or color is an unmistakable sign of the depletion of solution and a timely signal to prepare a fresh solution.
Functionality	Remarkably efficient in penetrating and disinfecting porous surfaces, crevices. Odorless, non – corrosive, non – staining, non – irritant/non – allergic.
pH	3.0 – 4.0

PHYSICAL DATA	
APPERANCE	DARK BROWN LIQUIUD
ODOR	MILD IODINE
SOLIBILITY IN WATER	COMPLETE MISCIBLE
pH	<1.5
SPECIFIC GRAVITY	1.028
ACTIVE INGREDIENTS	
IODINE*(CAS No.7553-56-2)	
% of iodine	1.5-1.6 mg/ml
Polyethoxy polypropoxy polethoxy ethanaol – iodine complexes
